## Luxury Transfers, Reimagined

For Potential Destination Partners

*With Pace Shuttles, the journey **is** the destination.*

### A Partnership That Enhances Every Guest Experience

Pace Shuttles isn't just a travel platform — it's a new way to bring guests directly to your venue. We combine smart scheduling with fractional-charter journeys to fill restaurants, beach clubs and resorts at just the right times.

If Mondays are quiet for lunch, we can schedule a route that delivers guests to your tables on Mondays — and do the same for other quieter moments across the week.

Each route we run features a **specific destination and experience at an agreed price**, giving travellers a compelling reason to book, and your venue a reliable flow of guests who've already paid for the journey.

By linking transport and hospitality, Pace Shuttles creates a premium, predictable and profitable flow of visitors — enhancing your guest experience from the moment they step aboard.

### Why Destinations Partner With Pace Shuttles
